

... so geht sauber!

Dust binding cloth impregnated

Hard-wearing dust binding cloth, with a fresh lemon fragrance and full-surface impregnation based on mineral oil (petroleum). Thermally bonded and therefore free from chemical binders.

Thanks to the very effective impregnation, the cloth has excellent dust absorption, which ultimately means that fewer cloths are required.

The soft material guarantees good floor contact even on uneven surfaces. As it is a mono-material, it is very easy to recycle.

Practical resealable zip lock bag.

Specification

- Size: 60x30cm (680230)
60x60cm (680220)
- Material: 100% PP
- Weight: 42 g/m² +
12 g/m² Impregnation
- Color: yellow
- PU: 10/50 (680230)
10/25 (680220)
