

... so geht sauber!

Dust binding cloth 23 impregnated

680250

Mineral oil-impregnated, hard-wearing dust cloth for use on closed and smooth floors.

Thanks to its highly effective impregnation, the cloth has excellent dust absorption properties, meaning that fewer cloths are needed and waste is reduced. Despite its low weight, it is very strong in terms of quality.

Excellent, full-surface impregnation based on mineral oil (petroleum). The cloth does not dry out and remains in very good condition for up to 2 years.

Specification

- Size: 60x25cm
- Material: 100% PP
- Weight: 18 g/m² + 5 g/m² impregnation
- Colour: white
- PU: 10/100
