**CLEANING EQUIPMENT  
FOR PROFESSIONALS**

# A reliable partner since 1956!

Founded in 1956, Sito has become a trusted partner for businesses in the trade and industry sectors. Based in Wangen im Allgäu, it is part of the Bierbaum Group, headquartered in Borken in the Münsterland region. Sito has established itself as a market leader in professional cleaning equipment.

## ABOUT US

As part of a succession plan, Sito was taken over by the Bierbaum Group in 2021. The fourth-generation, family-owned company produces cleaning cloths made of thermofleece at its Borken site. This complements Sito's product range perfectly.

Sito has been under new management since 2022. Since then, various innovations and technological adjustments have been made at the headquarters and two production sites in the Czech Republic.

# SPONGES

Our cleaning and pad sponges are ideal for everyday use. Available in various sizes and colour combinations, they are versatile and practical to use thanks to their comfortable handle strip. Sito cleaning sponges are characterised by their high water absorption capacity and they also have dimensional stability.

Their clear colour coding and unambiguous pictograms help prevent cross-contamination. They are suitable for a wide range of applications, from the gentle cleaning of sensitive surfaces to the vigorous removal of stubborn dirt from non-sensitive surfaces.

# MELAMINE

The Power Clean dirt remover is made of melamine resin foam, works like an eraser and solves real problems. It does not require the use of any chemicals. This means it is less harmful to the environment and also reduces the cost of cleaning products.

The Melamine Compact Pad is a recycled product made from melamine resin composite foam. Its properties are similar to the Power Clean dirt remover.

# CLEANING CLOTHS

Our wide range of cleaning cloths covers all common surfaces and areas of application. The cloths are washable, durable and can be reused multiple times. In addition to our all-purpose, nubby and window cloths, and the 'Just Viscose+' wet wipes, which are manufactured at our Borken site in the Münsterland region, our microfibre cloths impress with their soft feel, easy handling and streak- and lint-free cleaning results. The clear colour coding system helps to prevent cross-contamination. Their excellent gliding properties, high absorbency and water absorption enable efficient cleaning with minimal effort. Sito cleaning cloths are an essential tool for professional cleaners.

# ALL-PURPOSE CLOTH

## WIPING MOPS

Mop covers are an essential part of floor cleaning. As well as cotton mop covers, which are ideal for absorbing liquids, we also offer microfibre mop covers that can be used for a variety of purposes. They are characterised by their excellent cleaning performance, smooth gliding properties, durability and high dirt absorption capacity. Alongside the standard fastenings, our mop covers feature clear colour coding to prevent cross-contamination. Our range of reliable folding holders and aluminium handles is perfectly matched to our mop covers, enabling efficient, ergonomic, fatigue-free work.

## HOLDERS & HANDLES

Our high-quality holders, folding holders and handles are perfectly matched to our mop covers and hand pads. They allow you to work efficiently, ergonomically and without getting tired. They are an essential part of any floor cleaning kit!

Our folding holders are available in two standard sizes: pocket or pocket and strap versions. All our folding holders are equipped with an ergonomic foot switch for particularly easy operation.

Whether you prefer a conventional aluminium handle, a telescopic handle or an aluminium handle with a water tank, we have the right model for you. Our aluminium handles are also available in different versions, so you are equipped for all areas of application.

## METAL POT CLEANERS

Metal and spiral pot cleaners are true all-rounders with a wide range of applications. They clean effectively and hygienically, and are highly durable and heat-resistant. Spiral pot cleaners are made of a stainless steel alloy that makes them corrosion-resistant and insensitive to alkalis and acids. Like metal pot cleaners, they can remove even the most stubborn dirt and are an essential tool for professionals. The same applies to our hygienic copper cloths. Thanks to their hardness, they do not cause scratches and prevent the growth of bacteria. Our metal pot scrubbers, which are available in various sizes, do not require any cleaning agents. Thus, they contribute to a lower environmental impact. They are primarily used in the catering industry.

## WIRE MESH SCOURER

- For powerful and thorough cleaning
- Removes even the most stubborn dirt

# PADS

Sito Fleece and Super Floor pads, as well as various other specialised pads, are renowned for their efficient cleaning, durability and consistent performance. The reusable, washable machine pads are characterised by their long service life, thorough cleaning and quick removal. This ensures reliable, optimal cleaning results. Super Floor Pads are made from 100% recycled fibres, are available in different abrasive qualities, and come in the most common sizes for basic, maintenance or polishing cleaning. They are also available as Super Hand Pads for manual use. Our special pads are ideal for cleaning heavily soiled floor coverings and restoring them to their former glory.

- > Efficient floor cleaning with a long service life
- > Particularly high dirt absorption
- > Consistently high cleaning performance
- > Hard-wearing fibre blend

## EQUIPMENT

Alongside the reliable Magic Stick, which removes even the most stubborn dirt without the need for cleaning agents, we also offer a durable plastic version of our 'Slip Hazard' warning sign. This is the perfect addition to our wiping system, helping to increase safety and reduce the risk of accidents. Our accessories are perfect for professional cleaning.

## GET PERSONAL ADVICE.

Our dedicated team will be happy to address your specific concerns and questions personally. We offer you individual advice to best meet your needs.
