... so geht sauber!

OPTIX

Microfibre cloth

For a clear view, every day.

From spectacle lenses to smartphone and tablet screens, the OPTIX microfibre cloth is a practical companion for everyday cleaning - at home, in the office and on the go.

Features

The textured side loosens and picks up dirt. The smooth side then polishes the surface for a streak-free finish.

Washable at 60 °C and reusable.

Please note

Remove coarse particles from the surface before wiping, as these can cause scratches when cleaning with a dry cloth.

Specifications

Item number
680630

Size
400 × 300 mm

Fabric weight
230 g/m²

Material
90 % PES / 10 % PA
